Beloved Children of My Heart:

This week, it is with pleasure that I offer you My Beloved Morya's report on the Transmission Flame Ceremonies held in the Rocky Mountain Retreat on the evening of June 16, 1956 under the direction of Our Beloved Lanto.

These Transmission Flame Activities are very dear to the hearts of the entire Brotherhood because, through the projection of constructive thought carried on the united breath of both ascended and unascended beings, We hope to fan the Flame in the hearts of the balance of mankind to the place where they will speedily awaken to a realization of the mission for which they came into embodiment and take steps toward the fulfillment of their Divine Plan.

Your breath is your life, beloved ones, and was it not Our Beloved Jesus who said: "Greater love hath no man than that he give his life for his friend?" By conscientiously taking part in this monthly outpouring, beloved friends, that is just what each one of you is doing.

Blessings and Love,

MAHA CHOHAN

ADDRESS BY THE BELOVED EL MORYA

Beloved Ladies and Gentlemen:

Some of you were among that brave group that followed Me to the Teton some few years ago, thus enabling Me to fulfill a vow that I would return there some day with individuals in physical embodiment who relied upon My faith and had come through the veil of human maya sufficiently to allow them to attend that meeting in person.

I am sure that the majority of you have seen pictures of the Great Teton, and many of you, having visited there at least twice a year in the inner consciousness, are very well acquainted with its interior also.

You know that within the heart of that mountain is a great chamber, in the center of which is a beautiful circular Altar, around the base of which are large friezes showing the history of man's evolution beginning with Lord Michael's descent with the members of the First Root Race accompanied by their Manu. Several of the friezes have remained blank all down through the ages, but last year these were filled in. One frieze shows the release of the souls from the Compound; another shows the removal of the balance of the discarnates from the Earth; and still another shows the awakening of the souls in the Sleepers Realm.

As a decoration for the ceremonies, the Brothers have woven beautiful golden lotus blossoms around the base of the Altar. These have been brought from India and China in honor of the Beloved Lanto. Through them They have interspersed

a very fine green fern - also a native of China. This latter represents the color of the Precipitation Flame as well as that of the Brotherhood of the Teton. They have arranged the flowers so that the heart of the blossom faces outward. They look very beautiful.

The beautiful gold mesh curtains that hang at the entrance of each of the seven chambers that surround the great central room have been described to you before. You will remember that an Archangel and His Archaii are pictured on each one of those curtains, and when they are drawn back, as they are for this evening's ceremonies, it looks as though the entrance to each room were guarded by two Archangels - one on either side.

The chairs for the Karmic Board are now being prepared by the Builders of Form. They are composed of pink marble-like substance with deep insets of pearl. The color is representative of the Thought-form for the year and in honor of the four Sponsors for the year - each of Whom embodies the Pink Ray of Divine Love -- the Beloved Archangel Chamuel, with His Complement, the Beloved Charity; Beloved Paul, the Venetian and Blessed Nada.

It has not yet been revealed when the Karmic Boardwill convene - depending upon the conditions that prevail upon the Earth plane at this time. The Brothers and Sisters from the various Retreats are already gathering and presenting Their petitions to the Keeper of the Scrolls or reporting to Their various Sponsors. There is a great deal of activity, with everyone interested in the various petitions and ideas which They or others have brought in for the betterment of the race.

You have already had a description of the Keeper of the Scrolls - how He takes the Scroll from the Hierarch of each Retreat, encloses it in a cylinder, and then assigns the illustrious Visitor, or His representative, to the special Council Chamber allotted to Him.

The unascended lifestreams who attend the Conference in their inner bodies also present their petitions to this Brother. When the petitions are all assembled and looked over, it is found that many individuals have the same ideas. This happens mostly with unascended beings. It is the office of the Keeper of the Scrolls and His Assistants to get all these ideas together and present them to the visiting Hierarchy or Their representatives who, if the petitions have merit and are of the same vibration, weave them into Their own petitions. However, if the individual has an entirely distinct idea, he may be called upon to present it in person.

After all the petitions received have been looked over and approved by the Hierarch or representative of each Ray, they are attchaed to the Bulletin Board provided for the purpose just outside the entrance to each chamber. Here they are read over with great interest by both ascended and unascended members of the Brotherhood with the purpose that if the contents appeal to Them, they will rise and back them with the full strength of their support at the time they are presented to the Karmic Board.

From the 15th of June on, you would be surprised to learn of the number of individuals who drift toward this Retreat in their inner bodies; religionists, scientists, teachers, and so on.

I say 'drift' because it is the only word that can describe their coming. When they get into the vibratory action of the great scenes that are being enacted there, they often take the memory back of having visited some great hall in their dreams, and perhaps reading some petitions that appealed to them, and when they awaken, they often think within themselves: "Now that is a good idea! I shall incorporate that in my daily work, or in my research, or in my teaching!" - whichever the individual's activity might be.

So, beloved friends, there is a great period of germination going on in the heart of the Teton these days. This Retreat represents, as perhaps you know, the power of centrifugal force - the expansion of radiation. It represents the Power of Precipitation because it was in the vicinity of the Teton that the Ray was directed over which the First Root Race came to the Earth with the Lord Manu and the Archangel Michael who accompanied them. From there they separated and peopled the Earth; so the natural vibration of the Teton is the activity of Precipitation and Expansion.

You are invited to visit this Retreat as often as you can during this current month. Present your petitions to the Angel Presence in charge of the Scrolls. I think you will recognize Him, as He is a good friend of yours - (Micah). (see Note 1)

Beloved friends, you are among the privileged ones invited to enter the Retreat. We have described it to you so often that it will seem as though you are bringing back the memory of your experiences while visiting there in your inner bodies.

I would ask you now to relax. Do not allow yourselves to become tense because that communicates itself to your inner bodies and deprives you of much of the joy and happiness you would derive from your visits to the Retreat.

As it is time for the breathing exercises to commence, I must away to My post. Good-night, dear friends, and God be with you.

EL MORYA

Note 1 - Micah is the great Angel on whose Crown blazes the word "Union" referred to in Washington's Vision. He is the Son of the Beloved Archangel Michael, and was the Guardian Angel Presence for the Jewish Dispensation at the time of Moses - as Beloved Cherubim Lovelee is for Saint Germain's New Activity today.
